

COMPANY OVERVIEW

Quick-reference overview of all service lines and technical capabilities

Service Line	Scope Summary	Key Standards
Industrial Maintenance	PM programs, rotating equipment, heat exchangers, mechanical/electrical	ASME PCC-2, API 510/570, NFPA 70E
Outage Services	Planned/forced outage management, 24/7 response, national mobilization	ASME B31.1, Section I/VIII, NBIC
Welding & Fabrication	P91/P22 welding, PWHT, custom fab, WPS/PQR/WPQ documentation	ASME Sect I/IX, B31.1/B31.3, AWS D1.1
Emergency Response	24/7 response, 4-hr deployment target, post-event documentation	NBIC, ASME PCC-2, NFPA 25
Capital Projects	Full-lifecycle delivery, structural erection, mechanical installation	AISC 360, AWS D1.1, OSHA 1926
Resource Solutions	40,000+ craft network, NCCER-credentialed, industrial-only focus	OSHA 10/30, NCCER, ASME Sect IX

Capability	Category	Key Standards
Air Preheater Repair & Refurbishment	Power Generation	ASME PTC 4, B31.1
Boiler Tube Repair & Replacement	Power Generation	ASME Section I, IX, NBIC
High Energy Piping (HEP)	Power Generation	ASME B31.1 CPS Ch. VII, API 579
Papermill Maintenance	Industrial	ASME Section I, TAPPI, BLRBAC
Equipment Setting & Alignment	Industrial	API RP 686, API 610, ANSI/HI 1.4
Firewater Piping Systems	Infrastructure	NFPA 13/14/15/20/25
Structural Steel Erection	Structural	AWS D1.1, AISC 360
SO2 Scrubber Repairs & Upgrades	Environmental	EPA 40 CFR 60, ASTM D4787
Catalyst Removal & Installation	Process	OSHA 1910.119 PSM, API RP 577
HDPE Piping Fabrication	Piping	ASTM D3261/F1055/F2620

Capability	Category	Key Standards
Heat Exchanger Maintenance	Industrial	ASME Section VIII, TEMA, API 510
Pressure Vessel Inspection & Repair	Industrial	ASME VIII, NBIC R-Stamp, API 579
