

# MAC Industrial Services

Industrial Maintenance | Outage Services | Welding & Fabrication

Emergency Response | Capital Projects | Resource Solutions

*Optimizing performance • Improving reliability • Extending asset lifetime*

MAC Industrial Services empowers operations by ensuring strength, reliability, and longevity through a team of specialized engineers and technicians. They provide comprehensive services, including maintenance, repairs, and support for power and industrial clients.

RESOURCE POOL

40K+

PROS IN NETWORK

Our recruiting team taps into a nationwide network, maintaining open communication with former team members to quickly meet project staffing needs.

# SERVICES

With 100+ years of combined operational experience, we know how to maximize asset performance, reliability, and longevity.

CORE SERVICES

- Expansion Joint
- Pre Air Heater Work
- Capital Projects
- Ball Mills
- Process piping including HE systems
- CCT, HRSG, Gas & Steam Boiler M&R
- Piping | Scaffolding | Insulation
- Civil & structural work
- Equipment setting & alignments
- Catalyst removal and installation
- HDPE fabrication & install

PLANNED OUTAGES

Deep experience leading utility outages nationwide

- Collaborative planning & scheduling
- Strong safety & quality standards
- Engineered rigging solutions
- Smooth mobilizations
- Critical equipment replacement

FORCED OUTAGES

When unexpected happens, we guarantee readiness

- Same control as planned work
- Focused issue & damage repairs
- Deployment of additional expert team members
- Expedited mobilization

Rapid Response Meets Strategic Precision

Whatever your industrial maintenance needs, we have the depth of capability to handle it

# EXPERIENCE & CAPABILITIES

Our experienced team brings specialized engineering and hands-on technical skills to every phase of your assets' lifecycle. From product and performance engineers to construction managers, superintendents, and supply chain experts—we deliver **safe, high-quality, and efficient support** for our power and industrial clients.

OUR CAPABILITIES encompass the entire spectrum of industrial maintenance and construction –

Outages | Maint. & Reliability | Const. & Cap. Projects | Equip. Repair & Overhaul | Welding & Specialty Materials | Piping & Mech. Systems | Industrial Systems | Rigging & Equip. Handling | Project Controls & Work Mgmt. | Procurement & Supply Chain | Workforce Resources | Safety & Quality

WELDING EXPERIENCE

Our team has extensive experience in successfully executing **P91 and super duplex** projects with specialized knowledge of Sch 60 & 160 pipe and 9% or 25% chrome materials. We partner with fabricators for super duplex projects to shop weld and minimize the field-weld work, when necessary.

P91 Welding

Super Duplex

Post-Weld Heat Treatment

Ferrite Testing

AREAS OF EXPERTISE

Air Preheater Repair & Refurb

Firewater Piping Systems

Boiler Tube Repair & Replace

Structural Steel Erection & Refurb

Papermill Maintenance

SO2 Scrubber Repairs & Upgrades

HEP: High Energy Piping

Catalyst Removal & Install

Equipment Setting

HDPE Piping Fab & Install

OUR CUSTOMERS

— Utilities, Industry Leaders & Multiple Municipalities

Representative clients shown below.

- | Florida Power & Light
- | Duke Energy
- | Tampa International Airport
- | Hydro Aluminum Metals
- | DuPont Pine Lumber Mill
- | Cemex
- | Stratus Foods
- | Georgia Automatic Sprinkler
- | Ozinga

## Trusted by Industry Leaders –

Our client roster speaks to the confidence major organizations place in our capabilities:

**These partnerships weren't built on promises. — they were earned through consistent delivery, technical excellence, and unwavering commitment to safety and quality.**

## SAFETY & QUALITY

Quality assurance isn't an afterthought –

it's built into our systematic approach from planning through execution. Our planned and systematic activities ensure that every quality requirement for your project or service is not just met, but fulfilled with precision. —we maintain **rigorous, quality culture and tools that support consistent outcomes** across all our work.

### SAFETY FOCUSED

— People matter most to us —

We believe a safe workplace is key to successfully completing any project. Our company culture is built around one core idea: *everyone goes home safe every single day.*

#### OUR SAFETY PROGRAM

**COMMITMENT • CARE • COURAGE**

Achieving Goals Without Compromise

The project team prioritizes employee safety and well-being, providing leadership, training, and tools. Employees demonstrate their commitment to safety by signing a Safety Commitment.

### QUALITY COMMITTED

— Excellence in every project —

Quality assurance means we have planned, systematic processes in place to ensure your product or service **meets all requirements — every time.**

Planned & Systematic Processes

Consistent Standards & Procedures

Measurable Results & Accountability

## READY TO EXPERIENCE THE MAC DIFFERENCE?

*When your operations demand expertise, reliability, and proven performance, MAC Industrial Services delivers solutions that work—on time, on budget, and without compromise to safety or quality.*

## LET'S PARTNER

*keep your operations running smoothly*
